Developing Play Skills in Young Learners with ASD

FROM ASSESSMENT TO INTERVENTION

PRESENTED BY: Mary McDonald, PhD, BCBA-D, LBA

COURSE DESCRIPTION:

Many children with autism spectrum disorders either do not engage in self-directed play or may not play appropriately with toys or with their peers. This workshop will focus on developing and enhancing their play skills, based on individualized assessment and intervention. Various types of play will be discussed as they relate to intervention planning and the development of social behavior. There will be a focus on the promotion of independent play and spontaneous play through a variety of individualized behaviorally-based interventions. Instructional Methods: PowerPoint, Lecture, Discussion, Handouts, Interactive activities and video examples. **DISCLOSURES:** *Financial:* Invited Teacher & Speaker for Challenge Early Intervention Center and receives honoraria for teaching and speaking. *Non-Financial:* No relevant nonfinancial relationships reported.

LEARNING OBJECTIVES:

- After completion of the workshop participants will be able to:
1. Learn to conduct a play preference assessment and make play a more preferred activity.
 2. Describe a method for recording play behavior post intervention.
 3. Identify specific play skills of importance to children with ASD and develop individualized goals.
 4. Identify specific behaviorally based methods to teach play skills.

WORKSHOP REGISTRATION:

- Register online at Challenge-ei.com
- Payment must be received to confirm registration
- For assistance call 718-851-3300 ext. 155
